About ABV-IIITM Gwalior

Atal Bihari Vajpayee Indian Institute of Information Technology & Management Gwalior, established in 1997 by the Ministry of Human Resource Development, Government of India, is India's premier institute offering quality education in Information Technology and Management. Located in Gwalior, Madhya Pradesh, it fosters a culture of inquiry and research in a competitive academic environment with strong industry connections. Certified NAAC 'A' and declared an Institute of National Importance, ABV-IIITM focuses on excellence in education and collaboration with the corporate world.

About EEE Department

Established in 2022, the EEE Department drives teaching and research in VLSI, RF and Microwave Communication, Signal Processing, Photonics, and Control and Automation. It offers B.Tech., M.Tech. in IC Design and Technology, and Ph.D. programs while actively engaging in outreach and industry collaborations. Faculty lead government-funded research projects from SERB, DST, DBT, TTDF, MeitY, DSIR, TEQIP, and internal sources.

Introduction and Background

Creativity and innovation are vital for the growth of a knowledge economy, with India possessing abundant creative energies. A comprehensive IPR policy is essential to harness intellectual property for economic growth and cultural development while safeguarding public interests. The importance of IPRs as marketable assets must be emphasized, especially as India ranks 46th in the Global Innovation Index 2021 and has seen significant patent and trademark registrations. In response, the Institute Innovation Council of ABV-IIITM Gwalior is promoting innovation through IP-focused awareness programs, including a certificate course on Intellectual Property Rights, which will explore the IP landscape and its role in academia and research.

Course Objectives

- To introduce participants to the fundamentals of intellectual property rights.
- To analyze and compare various forms of intellectual property protection, highlighting their key similarities and differences.
- To offer a comprehensive overview of the relevant statutory, procedural, and case law that supports these processes, as well as their relationship with litigation.
- To inform participants about recent developments in intellectual property rights.
- To guide researchers on the proper application of intellectual property rights.

**This FDP is funded by ABV-IIITM
Gwalior.**
