Research Paper Writing & Publishing & Academic Writing: Thesis and Dissertation

Sudhanshu Rai is currently an Associate Professor of innovation in emerging economies and Director of Indian relations at the Department of inter-cultural communication and management, Copenhagen Business School. He is also the founder of the Mind science in society for innovation, with latest research project www.cocreatech.dk and the founder of iVATION Consulting. His other research areas are innovation in emerging economies, Co-creation of innovation, Entrepreneurship, Institutional logics, Indian reasoning, and Knowledge management.

At the Copenhagen Business School he teaches several Masters and undergraduate courses. At the masters level he has taught, Knowledge Management, IT as a resource, ICT in developing countries, Project management, Co-creating experience based innovation, etc. Currently he is responsible for three Master level courses, a) Innovation in flux, an emerging economy perspective on innovation. b) Shoes for the cobblers children, how to build business models, c) Landscape of the visionary, using contemplative techniques for innovative thinking. Sudhanshu sits on several boards. His recent appointment to the board of the Lauria University for applied science has acknowledged his international stature in the fields of co-creation of innovation. Sudhanshu has led several large EU funded projects, for instance he coordinated the Euro-India project which mapped India's innovative potential and collaborative capacity. This project provided a robust and basic understanding of where Indian firms stand on technology innovation and the role of consultants during the innovative process. Today his work is used as a base line for Indian related policy making at a micro level. He also coordinated the EU-Asia project that sought to raise the livelihood of entrepreneurs in China, Vietnam, and Philippians

Harvard/ APA citation styles

Citation tools enable you to:

- Build and store personalized collections of references
- Organize and manage these citations within folders
- Build bibliographies
- Automatically format and insert citations in papers you're writing
- Two of these tools: EndNote and Mendeley

Endnote

- Industry standard for citation management tools
- Used by millions of researchers to search online bibliographic databases, organize references and related files, and create bibliographies and figure lists instantly

Mendeley

- Is a new citation management tool that offers all the basic citation management tool features
- Enables social networking with other researchers
- Has a searchable crowd-sourced database approaching 100 million documents
